

Honorable Kevin Martin  
Chairman  
Federal Communication Commission  
445 Twelfth Street SW  
Washington, DC 20554

Dear Chairman Martin, Commissioners  
Adelstein, Copps and Tate:

I am deaf person and I use  
Voice Relay Service, IP Relay or  
TTY to communicate. I am writing  
to thank you for supporting services  
that meet the communications  
needs of the deaf and ~~deaf~~  
hard-of-hearing community.  
And to urge you to increase rather  
than cut the rate for these  
vital services I, together  
with many other deaf people,

the families and co workers depend on VRS and other relay services to communicate with hearing people and other deaf people

We should be encouraging more deaf people to use VRS Deaf people use these services as part of their work and part of their lives. We urge you <sup>to</sup> do everything you can to make VRS and other relay services available to the many deaf people who do not currently know they are available.

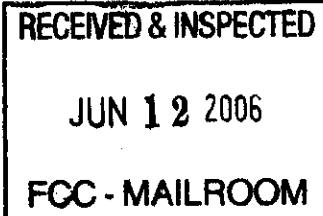

FCC has mandated improvements in VRS, and we applaud those improve. We urge you to provide adequate funding to support continued improvements

in URS, and we applaud those improvements. We urge you to provide adequate funding to support continued improvement to URS, and to support outreach to more people in the deaf community.

Increase funding for URS and other relay services. Don't cut it.

Sincerely  
Caela Clifford

Honorable Kevin Martin  
Chairman  
Federal Communications Commission  
445 Twelve Street SW  
Washington,DC 20554

Dear Chairman Martin, Commissioners Adelstein, Copps and Tate:

First of all, I am writing a letter to you personally, because I am very concerned after reading the recent news of FCC considering cutting or reducing the budget for VRS and other relay services as well. For the most part, I have always supported and appreciated your organization in helping to supply Videaphones and Relay service for many deaf people all over the country. As far as I am concerned, Video Relay Service is so vital for my wife and myself, because we are both hearing impaired and we use videophone for our daily living. To tell you the truth, it gives us much more accessible to contact other people for our personal needs, for instance, our car ins, doctors, attorney, talking with families and etc. without depending on our children. We have so many hearing friends and families as well and it shows you how important to have VRS as part of our life. So, would you please reconsider on this matter very carefully before making a final decision. Thank you so much for your help and I trust you that FCC will continue support deaf and hard of hearing community. Thank you again!

Very Truly Yours,

Thomas and Caryl La Roe
